

Last Updated: 08/09/2021

CIS 300 - Web Design and Development
Spring 2021 Term B (iCourse/ASUOnline) SLN: 88253, 88254

Professor: Dr. Elva (Suh-Yun) Lin

Office: BAC684

Office Hours: By appointment via Zoom <https://asu.zoom.us/j/7382926330>

Response Times: If you have any questions, please email me. I will try to reply your emails as soon as I can or before the end of the day from Monday - Friday. During weekends, I will try to answer your questions before the end of Sunday. Make sure you ask questions as soon as you can to ensure you meet deadlines and be proactive if you experience issues.

Email: Elva.Lin@asu.edu

Telephone: 480-965-2363

Canvas Tech Support: For technical issues regarding to Canvas, click “ ” from the left-hand navigation on Canvas then click on “ASU Live Chat”

Course Description

CIS300 introduces students to Web design and development. Along with the hands-on practice, the class will focus on site analysis, proper design, accessibility issues, and identifying target audiences, search optimization, testing and marketing Web sites.

This class is considered an introductory course. You do not need any prior experience in web design. However, this class does require some computer literacy.

It is very important you follow the instructions during this course. Much of the work requires things to be done in a specific order to work correctly. Taking your time, following the directions and reading for comprehension will make the materials easy to understand. All the materials for this course have been tested for completeness and correctness but if you find an error please let me know as soon as possible so that I can fix it for future students.

Prerequisites

None

W. P. Carey School of Business Learning Goals

The Undergraduate Program of the W.P. Carey School of Business has established the following learning goals for its graduates:

- **Critical Thinking**
- **Communication**
- **Discipline Specific Knowledge**
- **Ethical Awareness and Reasoning**
- **Global Awareness**

*Items in bold have significant coverage in this course.

Learning Outcomes

At the completion of this course, students will be able to:

- Apply HTML5 basics to create Web pages
- Configure color and text with CSS
- Use graphics and visual elements on Web pages
- Apply recommended Web design and accessibility practices
- Apply CSS techniques for positioning and floating Web page elements
- Create Web tables and forms
- Recognize the process of website development

Course Materials

Required Textbook:

Basics of Web Design HTML5 & CSS3 5th edition by Terry Felke-Morris

ISBN-13: 978-0135225486, **ISBN-10:** 0135225485

Student files can be downloaded by going to

<https://media.pearsoncmg.com/bc/abp/cs-resources/products/product.html#product,isbn=0135225485>

then click on "Companion Website" link. The companion website provides the image and video files for the case study assignments, solutions for all hands-on practices, and VideoNotes created by the author for all chapters.

Required Software:

Development Environment:

In order for the course to be consistent for all students, this course will require that you use a text editor (e.g. Notepad++, sublime text 3, or any text editor that you are familiar with).

Microsoft Office 2013+ (Word) or Google Word for Mac

During the course you will have weekly project submissions. These project files are typically Word documents that you will need to save/edit/submit by the due date.

It is considered a violation of academic integrity to utilize course materials which are illegally sourced. Please ensure that you are ordering and paying for your own materials as outlined in the ordering instructions.

Expectations

The topics in this class can be fun and allow for personal creativity, however, you should be aware that many topics build on previous ones. Some students have more computer experience than others and will find the topics easy to master while others will need time for experimenting and practicing.

To be successful work on the materials as soon as possible after they open, do the assignments early so you have enough time to complete them, and read/watch all of the assigned material. I'm here to assist you so email me your questions as soon as you can.

All the work is due by 11:59PM Arizona Time on the due date and assignment files should be submitted to Canvas by 11:55PM Arizona Time. Click the [Time Converter](#) to ensure that you account for the difference in Time Zones. Note: Arizona does not observe daylight savings time. All assignments, unless otherwise announced, MUST be submitted to the designated area of Canvas. Do not submit an assignment via email.

No late work will be accepted and internet/computer failure is not an acceptable excuse for not doing the work. Make sure you have a second option in the event you experience an internet/computer issue.

Make up work requires documentation for a university excused absence (ACD Accommodation for Religious Practices 304–04, Missed Classes Due to University-Sanctioned Activities ACD 304–02). Accommodations will be made for students with religious holidays. Below is the calendar of official religious holidays. Each holiday noted with two asterisks denotes an observance for which work is not allowed. For these holidays, students will not be penalized in any way for missing class or assignment. This means that this will not count as an absence in class and they will be granted a makeup assignment.

<https://provost.asu.edu/index.php?q=religious-holiday-calendar>

All requests for accommodation must be submitted by the end of the second week of class.

Medical and death of a family member are also available for excused absences but written dated documentation is required. Other classes and work are not acceptable excuses for missing course work.

Students requesting accommodation for a disability must be registered with the Disability Resource Center (DRC) and submit appropriate documentation from the DRC before a scheduled exam is opened on Canvas.

Assessment

Your course grade will be based on your performance on a combination of quizzes and assignments. The following weights will be applied to each grade category:

Grading Criteria	Weight
6 Weekly Quizzes and 1 Getting Started Quiz (Canvas)	25%
6 Weekly Case Study Submissions	25%
7 Project Assignments	50%
Total	100%

Grade Scheme

Grades will be strictly assigned according to the plus/minus ASU grade scale. Final grades will not be rounded.

Percentage	Course Grade
97.0 - 100%	A+
93.0 - 96.99%	A
90.0 - 92.99%	A-
87.0 - 89.99%	B+
83.0 - 86.99%	B
80.0 - 82.99%	B-
76.0 - 79.99%	C+
70.0 - 75.99%	C
60.0 - 69.99%	D
Below 60%	E

Quiz Policy

Quizzes will be open from the first day of the week at 12:00:00AM Arizona Time and will close the last day of the week at 11:59:59PM Arizona Time on the week in which it is due. The weekly class schedule table can be found in the end of this syllabus.

Quizzes are open note/book/resource.

Each quiz will consist of 25 multiple choice & true/false questions. Questions will be displayed 1(one) at a time and randomly from a large pool of questions (no exam will be the same). You will be unable to go back to a previous question after you have answered it. You will have 20 minutes to complete each quiz. If you go over the allotted 25 minutes your quiz/exam will automatically submit and your will receive the grade recorded. Since the quizzes are open all week, it is your responsibility to make sure your quiz is completed by the date and time it is due. **No retakes will be given on missed quizzes – no exceptions.**

It is your responsibility to ensure you are on a computer and internet connection that is stable. Additional quiz attempts will only be given in the event that there is a system wide outage that is documented by the University Technology Office on <https://syshealth.asu.edu>.

Case Study Policy

Case Studies submission links will be open from the first day of the week at 12:00:00AM Arizona Time and will close the last day of the week at 11:59:59PM Arizona Time on the week in which it is due. The weekly class schedule table can be found in the end of this syllabus.

Case studies are to be completed on your own and adhere to the academic integrity policies of the course.

During most of the weeks, you will be covering 2 chapters (both have a case study). Each chapter that has a case study builds upon the case study from the previous chapter. **Your final weekly submission will be the case study files from the last chapter covered during the week.**

It is your responsibility to ensure you are on a computer and internet connection that is stable.

Extensions on case studies will only be given in the event that there is a system wide outage that is documented by the University Technology Office on <https://syshealth.asu.edu>.

Project Deliverables Information and Policy

Project Deliverable submission links will be closed 11:59:59PM Arizona Time on the day in which it is due.

Projects deliverables are to be completed on your own and adhere to the academic integrity policies of the course.

The purpose of this Web Project Case Study is to design a website using recommended design practices. Your website might be about a favorite hobby or subject, your family, a church or club you belong to, a company that a friend owns, the company you work for, and so on. Your website will contain a home page and at least six (but no more than eight) content pages. The Web Project Case Study provides an outline for a semester-long project in which you design, create, and publish an original website.

For this project, you will have a total of 7 deliverables spread out throughout the course:

1. Project Topic Approval
2. Project Planning Analysis Sheet
3. Project Site Map
4. Project Page Layout Design
5. Project Update #1
6. Project Update #2
7. Project Publish and Discuss

The project deliverables make up 50% of your final grade, so make sure you complete them. A grading rubric will be provided for each deliverable so you can see what you will be graded on. It is VERY important that you begin working on this project at the start of the course. For more information about each deliverable, please see the information at the end of Chapter 3 in your textbook.

It is your responsibility to ensure you are on a computer and internet connection that is stable.

Extensions on final project deliverables will only be given in the event that there is a system wide outage that is documented by the University Technology Office on <https://syshealth.asu.edu>.

For the #7. Project Publish and Discuss:

Depend on your file size, the submission may take up to 1 ½ hours. Please submit your project publish and discuss assignment files around 10:00 pm Arizona Time on the day in which it is due. You will not get any message from Canvas until it is finished uploading your deliverables. Click “Tech Support” on Canvas if you run into problems. Then, email me to let me know.

While working through the project publish and discuss assignment, keep the following requirements in mind for your final deliverable (you will be learning about all of this throughout the course):

Project MUST contain (at minimum)

- One (1) home page and at least six (6) (but no more than eight (8)) content pages
- **Each page** must contain appropriate text and images that provide information and value to the target audience
- **Each page** must contain appropriate page titles
- One (1) table utilizing data effectively
- One (1) video: You are not required to create the video, there are many sharable videos on the Web – chose one that is relevant to your project. However, if you can’t find a small file size video, e.g. less than 2 minutes, please create a **video for 10-20 seconds long and no more than 1 minute.** **If the video is too long, it will add difficulty in submitting your project deliverables to Canvas.**
- One (1) e-mail link
- One (1) external link, such as google.com, asu.edu, etc.
- **Each page** must contain appropriate meta tags
- One (1) form (four (4) fields minimum)
 - Form must reside on project site (link to an external form is not allowed)
 - For the FORM action you can just use # for this project.
- One (1) external style sheet (CSS) which contains a minimum of six (6) styles

Project must NOT contain

- mailto or handlers (for example, ASP, CGI scripts) provided in our course assignments are not allowed as the FORM action
- < FRAMES > based page
- < TABLE > based page
- < IFRAME > based page
- Image based page (where the page contains little or no text or content other than images)
- Spry Widgets (Dreamweaver)
- FONT tag or inline, embedded, physical or logical styles

Instructor’s Suggestions for succeeding in the Course

My goal is for every student to succeed in this course! Accordingly, I will do whatever I can to be available to answer questions, to explain concepts in alternative ways, and to revisit prior material. I will also try hard to make this class interesting. However, it is very possible for you to receive a poor (or failing) grade by ignoring the following suggestions:

- **Start working on assignments/quizzes/exams as soon as you can** so you have time to ask questions and complete the assignments/quizzes/exams on time
- **Email me early (and often)** if you need help
- **Log into the course daily:** This course will go by extremely quick. If you are not logging in daily, you are likely to miss something.
- **Pay attention/read announcements:** I will periodically send out announcements, please read them. They are really for your benefit, not mine.
- **Read and respond to course email messages as needed**

- **Create a study and/or assignment schedule** to stay on track
- **Access** [ASU Online Student Resources](#)

Syllabus and Schedule Disclaimer

The syllabus is a statement of intent and serves as an implicit agreement between the instructor and the student. Every effort will be made to avoid changing the course schedule but the possibility exists that unforeseen events will make syllabus changes necessary. Please remember to check your ASU email and the course site often.

Appeals of Grading

If you wish to appeal grading for any portion of the course, this should be done by writing a brief email message or letter that explains your concerns. The purpose of a written appeal is to allow the instructor to find the student's grade (from among those of numerous current students) and to then consider the appeal on its merits without distraction. Student grade appeals will be reviewed quickly and fairly. Appeals concerning validity of quiz questions or posted answers must be made within 48 hours of quiz close date.

Other types of grade appeals must be made within 3 days of the time your grade posted. It is **your responsibility** to verify grades on Canvas and signal discrepancies to your instructor at your earliest possible opportunity.

Once the appeal period has passed for any given quiz//assignment, the instructor will not accept appeal requests.

Backing Up Your Work

You are responsible for maintaining backups of all your assignments as you work through them. I highly suggest the use of a flash drive and/or a cloud storage provider so you have two copies of your data. If you choose not to take preventative disaster recovery measures, you still remain responsible for on-time submission of your assignments.

Course Website

Course assignments, documents, and information will be available on the class web site at <http://myASUcourses.asu.edu>.

Email/Online Communication

All communication via email should be professional in form, content, and tone. That means that the message should have a subject indicating it is for CIS300 and begin with a salutation and the body should explain the purpose of the message in clear English and give a complete description of the problem or situation you are writing about. The message should be signed with your full name, student ID, and include the section you are in. Please do not write to ask for information that is contained in the course syllabus and schedule (e.g., grading policies, due dates, etc.).

Drop and Add Dates/Withdrawals

This course adheres to a compressed schedule and may be part of a sequenced program, therefore, there is a limited timeline to [drop or add the course](#). Consult with your advisor and notify your instructor to add or drop this course. If you are considering a withdrawal, review the following ASU policies: [Withdrawal from Classes](#), [Medical/Compassionate Withdrawal](#), and a [Grade of Incomplete](#).

Academic Integrity

Prior to having access to any of the course material, you will be required to read, understand, and agree

to the Academic Integrity Policies of ASU, W. P. Carey School of Business, and this CIS300 course. Additional information about the Academic Integrity Policies in this course, W. P. Carey, and ASU will be discussed in the "Start Here" section.

From the **ASU General Catalog**: “The highest standards of academic integrity are expected of all students. Failure to meet these standards may result in suspension or expulsion from the university and other sanctions as specified in the academic integrity policies of the individual colleges. ***Violations of academic integrity include, but are not limited to cheating, fabrication, tampering, plagiarism, or facilitating such activities...***” Specific policies can be found at: (<http://provost.asu.edu/academicintegrity>).

The term “facilitating” includes active or inactive participation in academic dishonesty. Inactive participation includes silent knowledge of violations. This policy relates to all assignments, quizzes, and exams for this course. Please be forewarned that your instructor strongly agrees with this policy, will strive to actively enforce it, and will support punishment for those who violate it.

- Protect your assignments/quizzes/exams. Don't leave files on the hard drives of school computers; don't share your files, answers, etc. with others.
- Expect to be called in for an interview with the instructor if your assignments/quizzes/exams are flagged for academic integrity violations.

CIS300 Academic Integrity Policies and Ethical Behavior

There is something to be said about the saying two heads are better than one. When it comes to learning how to build a website, collaboration is key. With that being said, this course's philosophy on academic honesty is best stated as "**be reasonable.**" The course recognizes that interactions with classmates and others can facilitate mastery of the course's material. However, there remains **a line between enlisting the help of another and submitting the work of another**. This policy characterizes both sides of that line.

The essence of all work that you submit to this course must be your own. Collaboration on assignments and/or the final project is not permitted except to the extent that you may ask classmates and others for help so long as that help does not reduce to another doing your work for you. Generally speaking, when asking for help, **you may show your code to others, but you may not view theirs.**

Below are rules of thumb that (in exhaustively) characterize acts that the course considers reasonable and not reasonable. If in doubt as to whether some act is reasonable, do not commit it and remember you can always ask me for help.

Reasonable

- Communicating with classmates about assignment/final project problems in English (or some other spoken language).
- Discussing the course's material with others in order to understand it better.
- Helping a classmate identify a bug in his or her code, as by viewing, compiling, or running his or her code, even on your own computer.
- Incorporating snippets of code that you find online or elsewhere into your own code, provided that those snippets are not themselves solutions to assigned problems and that you cite the snippets' origins.
- Sending or showing code that you've written to someone, possibly a classmate, so that he or she might help you identify and fix a bug.
- Sharing snippets of your own code on Reddit or elsewhere so that others might help you identify and fix a bug.

- Turning to the web or elsewhere for instruction beyond the course's own, for references, and for solutions to technical difficulties, but not for outright solutions to problem set's problems or your own final project.
- White boarding solutions to problem sets with others using diagrams or pseudocode but not actual code.
- Working with (and even paying) a tutor to help you with the course, provided the tutor does not do your work for you.

Not Reasonable

- Accessing a solution to some problem prior to (re-)submitting your own.
- Asking a classmate to see his or her solution to a problem set's problem before (re-)submitting your own.
- Failing to cite (as with comments) the origins of code or techniques that you discover outside of the course's own lessons and integrate into your own work, even while respecting this policy's other constraints.
- Giving or showing to a classmate your solution to a problem set's problem when it is he or she, and not you, who is struggling to solve it.
- Paying or offering to pay an individual for work that you may submit as (part of) your own.
- Providing or making available solutions to problem sets to individuals who might take this course in the future.
- Searching for or soliciting outright solutions to problem sets online or elsewhere.
- Splitting a problem set's workload with another individual and combining your work.
- Submitting (after possibly modifying) the work of another individual beyond allowed snippets.
- Submitting the same or similar work to this course that you have submitted or will submit to another.
- Viewing another's solution to a problem set's problem and basing your own solution on it.

In the event you are flagged for academic integrity issues, the instructor will proceed with the following course of action:

- If you are found in violation of the course's policies on a case study or quiz, you will receive a **0 on the assignment and a 2 letter grade reduction** for the first offense.
- If you are found in violation of the course's policies more than once on a case study or quiz, you will receive an automatic failing grade in the course and the ***instructor will recommend the letter grade of "XE" (Failure due to Academic Dishonesty)*** be placed on your transcript. An "XE" will prohibit you from representing the University in any extracurricular activity or run for (or hold) office in any recognized student organization. During this time frame, you will be unable to represent the University in any extracurricular activity or run for (or hold) office in any recognized student organization.
- If you are found in violations of the course's policies on any of the final project deliverables, you will receive an automatic failing grade for the course.

In summary:

The W. P. Carey School takes academic integrity very seriously. Therefore, unless otherwise specified, it is imperative that you do your own work. Any suspected violations of academic integrity will be taken seriously and result in the following sanctions:

- A minimum of zero on the assignment OR
- A reduced grade in the course OR
- A failure in the course OR
- An XE which denotes failure due to academic dishonesty on the transcript OR
- Removal from the W. P. Carey School of Business

Additional information on ASU's academic integrity policy may be found at <http://provost.asu.edu/academicintegrity>

Additional Ethics Policy

By law and regulation, this class will be conducted within the ethical standards of the university at large, which promote tolerance and preclude such activities as plagiarism, cheating, unfair grading, and various forms of harassment.

Honor Code and Professionalism Policy

The Undergraduate Student Honor Code information can be found at:

<https://students.wpcarey.asu.edu/resources/professionalism-policy>

Be aware that business, when practiced effectively, has ethics that go beyond the university standards. ***These are ethics that are aimed at creating collegiality.*** The goal is to make customers, employees, managers, and vendors feel happy and satisfied...not just tolerated! This class will follow business ethics as well as university regulations.

Prohibition Against Discrimination, Harassment, and Retaliation

Title IX is a federal law that provides that no person be excluded on the basis of sex from participation in, be denied benefits of, or be subjected to discrimination under any education program or activity. Both Title IX and university policy make clear that sexual violence and harassment based on sex is prohibited. An individual who believes they have been subjected to sexual violence or harassed on the basis of sex can seek support, including counseling and academic support, from the university. If you or someone you know has been harassed on the basis of sex or sexually assaulted, you can find information and resources at <https://sexualviolenceprevention.asu.edu/faqs>.

As a mandated reporter, I am obligated to report any information I become aware of regarding alleged acts of sexual discrimination, including sexual violence and dating violence. ASU Counseling Services, <https://eoss.asu.edu/counseling>, is available if you wish to discuss any concerns confidentially and privately.

Religious Accommodations

Accommodations will be made for students with religious holidays. Below is the calendar of official religious holidays. Each holiday noted with two asterisks denotes an observance for which work is not allowed. For these holidays, students will not be penalized in any way for missing class or assignment. This means that this will not count as an absence in class and they will be granted a makeup assignment or exam, etc. <https://eoss.asu.edu/cora/holidays> All requests for accommodation must be submitted by the end of the second week of class.

University-Sanctioned Activities

Accommodations will be made for students who miss class related to university-sanctioned activities according to ACD 304-02.

If you are participating in a university-sanctioned activity, please let your instructor know as early in the course as possible so that accommodations can be made.

Tutoring Support

There is no tutoring support for this class. Email all your questions to your instructors.

Please note that the W. P. Carey School of Business provides free tutoring in BA 201 for a number of undergraduate business classes. Assistance with writing is also provided.

More information regarding courses offered and hours are available here:

<https://students.wpcarey.asu.edu/resources/student-success-centers>

In addition to the W. P. Carey Student Success Center, Arizona State University provides writing assistance through multiple platforms – including in class workshops (within your course!). More information can be found here: <https://tutoring.asu.edu/student-services/writing-centers>.

The W. P. Carey School of Business provides a variety of support services to our international students at the Global Education Center in BAC 119. More information can be found here:

<https://students.wpcarey.asu.edu/resources/international-students/cultural-events>

Threatening Behavior Policy

The university takes threatening behavior very seriously and these situations will be handled in accordance with the Student Services Manual, SSM 104-02

<http://www.asu.edu/aad/manuals/ssm/ssm104-02.html>.

Prohibition of Commercial Note Taking Services

In accordance with [ACD 304-06 Commercial Note Taking Services](#), written permission must be secured from the official instructor of the class in order to sell the instructor's oral communication in the form of notes. Notes must have the note taker's name as well as the instructor's name, the course number, and the date.

Course Evaluation

Students are expected to complete the course evaluation. The feedback provides valuable information to the instructor and the college and is used to improve student learning. Students are notified when the online evaluation form is available.

Disability Resource Center

If you need an accommodation for a disability, you must register with the Disability Resource Center (DRC).

Copyright Material

Please note that course content, including lectures, are copyrighted material and students may not sell notes taken during the conduct of the course.

Class Weekly Schedule

Last Day to Register or Drop/Add Without College Approval – 03/09

Course Withdrawal Deadline – 03/26

Complete Session Withdrawal Deadline – 04/23

Week	Date	Topics	Quiz	Case Study Assignment	Project Assignment
1	10/14 – 10/20	*Start Here* session on Canvas, Ch1, Ch2	Getting started quiz and weekly 1 Quiz	Ch2	No
2	10/21 – 10/27	Ch3, Ch4	Week 2 Quiz	Ch4	Topic Approval
3	10/28 – 11/03	Ch5, Ch6	Week 3 Quiz	Ch5, Ch6	Planning Analysis Sheet
4	11/04 – 11/10	Ch7, Ch8	Week 4 Quiz	Ch7, Ch8	Site Map, Page Layout Design

5	11/11 – 11/18	Ch9, Ch10	Week 5 Quiz	Ch9, Ch10	Update #1
6	11/19 – 11/28	Ch11, Ch12	Week 6 Quiz	Ch11, Ch12	Update #2
7	11/29 – 12/05	Final Project	No	No	Final Project

Information contained within this syllabus (except grading and absence policies) is subject to change.
